

Pulmac Laminator

Pulmac Laminator

The Pulmac Laminator is used for rapid preparation of Stickies displays. Also used to “set” dirt for scanning. Rapid, repeatable, and robust!

Description

The Pulmac Laminator is a robust laminator designed to be used with the Pulmac MasterScreen for sample preparation of displays for analysis of Stickies, Dirt, and/or Shives by scanner.

This laminator is designed for industrial use.

Temperature, nip pressure, and roller speed have been standardized. Comes with carrier.

Benefits

Small foot print, robust design, and supports repeatable testing of displays from Pulmac MasterScreen.
