

Pulmac's DataSolve™ Program

Want to make use of your data?

Have any of these challenges?

- Is your team missing their production targets?
- Is your downtime or reject rate increasing?
- Lack resources to get the answers you need?
- Need timely insights to support decisions?
- Don't have time for strong data analytics?
- Are process knowledge and data science skill sets misaligned?

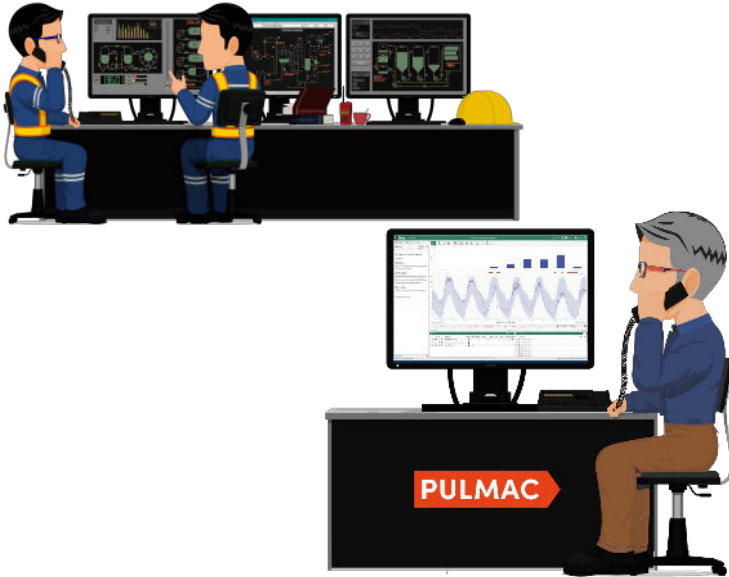

Pulmac has the answer. Our DataSolve™ Program gets you the most value from your data. After all, the devil's in the data.

This program integrates data from all sources, analytics tools, and Pulmac subject matter experts to capture data from your process and mine for insight in a collaborative approach to get to the answers you need.

Pulmac Systems International Inc.
35 Dorset Lane, Suite 201, Williston, Vermont 05495 USA

p. 802-223-2662 | f. 802-223-2664
engineer@pulmac.com | www.pulmac.com
